

This very tough, high-quality textile sheath is particularly suitable for the hydraulic and pneumatic sectors. It can be used to bundle multiple hoses or protect a single hose. Thanks to the toughness of the material used, it has optimum resistance to mechanical stress and is compatible with oils and organic products.

# Anti-Abrasion Sleeve

- Highly durable
- MSHA certified #IC-281
- Resistant to most solvents, oils, acids and alkalis
- Protect people and equipment from bursting hoses
- Customized lengths possible on request

Working temperature from -40°F to +158°F

Part Number	Nominal Dimensions		Weight lbs.	Feet Per Box
	ID in.	Width in.
